**What level student should take this test?**

MAP Growth Reading K-2 is designed for students in kindergarten through 2nd grade who are not yet independent readers.

**What is a computer-adaptive test?**

This type of test adapts to a student's knowledge level based on their performance as they move through the test. The first question is based on either their registered grade level or their previous MAP performance.

**How does a computer-adaptive test work?**

The question difficulty adjusts up or down based on whether a student is answering questions correctly or incorrectly.

**How long will it take to receive results?**

1-2 days.

**What is included in the score report?**
**Percentile**

This compares the student's performance to the norm group showing how the student compares to their grade-age peers in the season that they tested in.

**RIT Scores**

For Reading K-2 *and* for the subtopics. This is used to track growth over time.

**Learning Statements**

Learning statements are typically 10-15 pages of specific skills the student is ready to learn.

**Lexile® Level**

Use to find appropriately challenging materials.
